SENTINEL®

ALWAYS LEADING

What's Your Telehealth Strategy?

Sentinel's Telehealth & Telemedicine Maturity Workshop analyzes the current status of your distributed care environment and helps you establish a clear strategy for the future focused on optimization and growth.

Sentinel's Telehealth & Telemedicine Maturity Workshop provides a comprehensive review of your current posture and recommends ways to foster growth, improve security, and keep costs manageable. Even if you do not have any Telehealth / Telemedicine solutions in place yet, Sentinel can help define a path forward no matter your size or maturity level.

Workshop Overview

- Current State Discovery- Experts perform a comprehensive analysis of your current Telehealth /Telemedicine posture
- Provider Engagement-The Sentinel team conducts working sessions with key personnel to review workflows
- Secure Solutions & Controls - Sentinel reviews the security and controls within your environment to assess if they meet regulatory requirements, and recommends ways to improve the protection of critical assets
- Report and Presentation - Sentinel provides recommendations and presents our findings on Telehealth /Telemedicine Maturity.

Benefits

- **Provides a detailed roadmap to help ensure your organization is fully prepared to handle the demands of Telehealth & Telemedicine in the future**
- **Identifies areas where additional focus is required to maintain a mature Telehealth/Telemedicine practice**
- **Includes an assessment featuring your overall security risk score, as well as your readiness score for each Telehealth/ Telemedicine Maturity level**
